Importance: High

Quinn Team,

I don't believe anyone responded to my email last night.

The Spider components have been brought to our office and are available for your inspection tomorrow. Please let us know if Jordan and/or your expert want to see them. If not, we will send them back to the client.

Quinn Team,

As I think you know, there was never a completed Spider. However, if you want to inspect some of the Spider components, we can make them available in our SF office Tuesday morning. Let me know if you want to see them. Same ground rules.

Arturo
